Contents

| | | |
|---|---|----|
| 0 | Summary | vi |
| 1 | A broad range of telco and non-telco players will deliver NGA | 1 |
| 2 | Telcos have the scale and brand to exploit NGA | 3 |
| 3 | Cablecos will benefit from fast, cheap upgrades and channel bonding | 8 |
| 4 | Energy suppliers will become serious players in some countries | 14 |
| 5 | Public funding will distort the broadband market | 19 |
| 6 | Private wholesale-only players will survive in high-ARPU markets | 23 |
| 7 | New market entrants may struggle to make an impact | 27 |
| 8 | Cable operators will seize the window of opportunity | 30 |
| | Key to acronyms | 35 |
| | Research from Analysys Mason | 36 |
| | Consulting from Analysys Mason | 37 |

List of Figures and Tables

| | | |
|--------------------|--|-----|
| Figure 0.1: | Broadband market share by type of operator in Western Europe, 2003–2019 | vii |
| Table 2.1: | SWOT analysis – incumbent telcos | 3 |
| Table 3.1: | SWOT analysis – cable operators | 8 |
| Figure 3.1: | Typical headline speeds offered by telcos and cablecos in developed markets, 1999–2011 | 10 |
| Table 4.1: | SWOT analysis – energy suppliers | 14 |
| Table 5.1: | SWOT analysis – publicly funded NGA | 19 |
| Table 5.2: | Policy approaches and likely beneficiaries | 21 |
| Table 5.3: | Examples of publicly funded NGA roll-outs | 22 |
| Table 6.1: | SWOT analysis – private wholesale players | 23 |

| | | |
|--------------------|--|----|
| Figure 6.1: | Two likely models for wholesale-only access led by the private sector | 24 |
| Table 7.1: | SWOT analysis – new market entrants | 27 |
| Table 8.1: | Typical highest-speed Internet offerings from telcos and cable operators and their effect on churn, Western Europe | 31 |
| Figure 8.1: | Broadband market share by type of operator in Western Europe, 2003–2019 | 33 |

Author

Richard Thurston (Analyst) is the lead analyst for Analysys Mason's *Fixed Networks* research programme, and is responsible for writing a broad range of reports, analysis and insight. He also covers topics such as business services, mobile broadband, convergence, and voice. Prior to joining Analysys Mason, he worked as a freelance business technology journalist, writing news articles and features on telecoms and IT for publications such as *Mobile Europe*, *The Register*, *Total Telecom* and *ZDNet*. Prior to that, Richard was News Editor of *ZDNet* and Editor of *Communications News*. He has a first degree in Mathematics and Operational Research, and a postgraduate qualification in Economics and Econometrics, from the University of Exeter.

Acknowledgements

The author would like to thank all those who assisted in the preparation of this report: Anders Hillbur, Head of Broadband Access, Ericsson; Todd Kessler, VP of Product Management, ARRIS; Henrique Rosado, Investor Relations, ZON Multimedia; Christian Bakx, VP Product Management, UPC Broadband; Rolf Bive, Chief Technical Strategy Officer, GET; Ronny Lorentzen, Systems Manager, and Dagfinn Wåge, Chief Innovation Officer, Altibox; and Adrian Crook, Commercial Director, Fibrecity. The author would also like to thank the following colleagues from Analysys Mason: Rupert Wood for reviewing; Cesar Bachelet, Franck Chevalier, Mark Main, Rod Parker and Martin Scott for invaluable insight; and Sarah Peake for editorial support.

Research from Analysys Mason

Analysys Mason provides a portfolio of subscription research services that help organisations to understand major strategic shifts, as well as country- and region-specific trends, in the global telecoms industry. Through a combination of granular market data and forecasts, and independent qualitative analysis and insight, we enable clients to make informed strategic and tactical decisions, reduce risk and benchmark their business performance.

Split across three research streams, which cover telecoms operators, services, markets, software and networks, the research programmes provide a range of deliverables during a typical 12-month subscription period.

Analysys Mason's subscription research portfolio

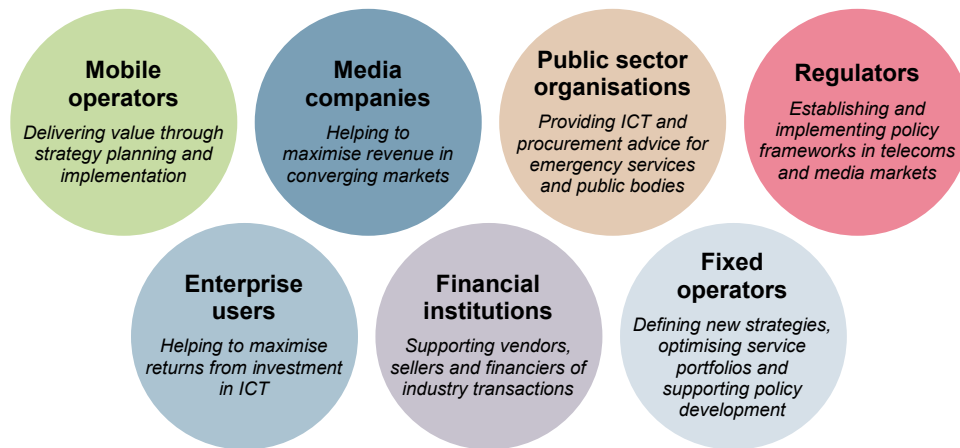

In addition to its subscription-based content, Analysys Mason also offers a custom research service, which helps clients to answer specific questions.

For more information about our subscription research programmes and custom research services, please visit www.analysismason.com/research.

Consulting from Analysys Mason

Analysys Mason offers consulting services that span the entire business development cycle from strategy development, through planning and implementation, to review. We help clients in the public and private sectors to make the best possible business decisions on many key issues, including investment, strategy, policy, procurement, network roll-out and market entry.

Analysys Mason advises clients in many industry sectors

For more than 20 years, Analysys Mason has been working with a range of global clients to resolve business-critical issues by applying its intellectual rigour, passion and expertise.
