

# Network automation and orchestration: worldwide forecast 2023–2028

Michelle Lam

## About this report

This report provides forecasts for communications service provider (CSP) spending on network automation and orchestration (NAO) systems and related services for 2023–2028. It provides details on spending by delivery model, service type and region, as well as the major drivers, including 5G. The report also provides recommendations for vendors and CSPs.

The report is based on several sources, including:

- Analysys Mason’s research from the past year
- interviews with CSPs and vendors worldwide.

### KEY QUESTIONS ANSWERED IN THIS REPORT

- What are the key trends and factors that will affect the network automation and orchestration market during 2023–2028?
- What are the regional factors that will drive growth?
- What should vendors do to exploit new business opportunities?
- How will professional services for network automation and orchestration perform during the forecast period?

### WHO SHOULD READ THIS REPORT

- Vendor strategy teams that need to understand where investments are shifting according to different market drivers.
- Product management teams that are responsible for feature functionality and geographical focus, and product marketing teams that are responsible for revenue growth.
- Professional services vendors that want to understand the growth opportunities over the next 5 years.
- CSPs that are planning digital transformation journeys and want to understand key areas that they should focus on.

About the author and Analysys Mason

## About the author

Michelle Lam (Analyst) is a member of the Applications practice. She holds a BSc in physics and an MSc in quantum technologies from University College London (UCL), where she was an academic representative to the Students' Union and assisted with research at the UCL Centre for Blockchain Technologies. She has also worked as a data analyst in machine learning and experimental physics, and has undertaken quantum computing research at the London Centre for Nanotechnology.

# Our research services

- 
**Consumer Services**  
 Fixed Broadband Services  
 Mobile Services  
 Fixed-Mobile Convergence  
 Smart Devices  
 Future Comms  
 Video, Gaming and Entertainment
- 
**Networks**  
 Next-Generation Wireless Networks  
 Wireless Infrastructure Strategies  
 Fibre Infrastructure Strategies  
 Operator Investment Strategies  
 Telecoms Strategy and Forecast  
 Transport Network Strategies
- 
**Applications**  
 Network Automation and Orchestration  
 Customer Engagement  
 Monetisation Platforms  
 Digital Experience  
 Automated Assurance  
 Service Design and Orchestration  
 Telecoms Software Market Shares
- 
**Satellite and Space**  
 Satellite Communications  
 Space Applications and Infrastructure

**Operator Business Services and IoT**

- Enterprise Services
- SME Services
- IoT Services
- Private Networks

**SMB IT Channels and Forecasts**

- Cyber Security
- SMB Technology Forecaster

**Regional Markets**

- Global Telecoms Data and Financial KPIs
- Americas
- Asia-Pacific
- Middle East and Africa
- European Core Forecasts
- European Telecoms Market Matrix
- European Country Reports

**Cloud**

- Cloud Infrastructure Strategies
- Data, AI and Development Platforms
- Edge and Media Platforms
- Multi-Cloud Networking

**DataHub**

- ~2800 forecast and 280+ historical metrics
- Regional results and worldwide totals
- Operator historical data
